INTRODUCING THE AFINION 2 ANALYZER

Providing immediate,
actionable results
when managing
diabetes patients.

THE AFINION 2 ANALYZER - SIMPLY MORE EFFICIENT

THE BENEFITS OF THE AFINION 2 ANALYZER INCLUDE:

- Results in 3 minutes
- Simple 3 step sampling procedure
- All in one test cartridge
- Hygienic closed system
- No additional calibration necessary
- No interference from common Hb variants
- No maintenance required
- Small, compact and quiet
- Extensive and comprehensive failsafe systems
- Patient and control results automatically transferred

3-STEP PROCEDURE

1 Collect the sample with the integrated sampling device.

2 Place the sampling device back in the test cartridge.

3 Place the test cartridge in the analyzer and close the lid. The processing starts automatically.

Every moment counts in your day.
Now you can have faster patient results
enabling you to act at the point of care.
